PROFESSIONAL SUMMARY

Results-driven developer with 1+ years of experience building and shipping production web applications using React.js, PHP, and Node.js. Skilled in end-to-end feature delivery, custom CMS development, and database architecture. Known for identifying performance bottlenecks and translating technical constraints into clean, maintainable solutions.

EDUCATION

Bachelor of Computer Science, Mehran UET

2021 - 2024

Relevant CourseWork: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Web Development, Operating Systems, Software Engineering, Artificial Intelligence, Data Science, Human Computer Interaction

SKILLS

Languages/Frameworks: React.js, PHP, Node.js, Express.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Databases: MySQL, MongoDB, SQL

Tools: Git, GitHub, MS Excel, API Development

WORK EXPERIENCE

Full Stack Developer

Redbox Technologies Pvt Ltd.

- Built and maintained scalable features across core platform modules, connecting React.js frontends to PHP/MySQL backends to improve application responsiveness and reduce server load
- Designed server-side logic and database schemas that kept data flow consistent across core application modules, supporting reliable API consumption end-to-end API consumption and consistent data flow.
- Diagnosed and resolved a performance bottleneck on a key screen, cutting load time from over 5 seconds to under 3 seconds, a 40%+ improvement in speed

Frontend Developer

Bitspro

- Developed and maintained responsive user interfaces from design specs, ensuring consistent behavior and visual accuracy across devices and screen sizes
- Partnered with backend and design teams to integrate frontend features with backend services, shipping 15+ features/releases without breaking existing functionality.
- Led code reviews and enforced frontend coding standards, improving team code consistency and reducing review turnaround time.

PROJECTS

Bulk Mailer System: Built an automated email dispatch platform supporting list management, custom dynamic templates, and delivery-status tracking, processing 100 emails per batch

Agency Portfolio: Developed a high-performance corporate platform for a multi-national digital agency to showcase specialized services in AI, SaaS, and Blockchain.

Digital Publishing: Created an end-to-end service portal for professional ghostwriting and digital publishing, facilitating communication between authors and experts.
